

Janie Gibson Actor | Theatre-Maker | Director

"Janie has established herself as a powerful and original performance maker" -Realtime

Janie Gibson is an actor, theatre-maker and director with a background in Eastern European ensemble theatre, Shakespeare performance and devised theatre-making. She believes that stories, in the traditional sense, are like medicine – a way to show us who we are, speak about what is unspoken and offer a pathway towards deeper connection to each other, to nature, to our history and our ancestors.
